

HEALTH & SAFETY POLICY

As the management of Metal Yapı, we are dedicated to safeguarding the health and safety interests of our employees, our subcontractors, our clients and all visitors to the workplace. As such, we aim to reduce the potential health and safety risks to a tolerable level and to achieve a zero accident rate in all our processes. To this end, we make a commitment...

- to identify and regulate existing health and safety risks;
- to allocate the resources required to constantly improve our health and safety performance;
- to employ competent personnel within the business organization and to provide the training necessary to constantly develop personnel competence;
- to ensure all personnel are familiar with emergency procedures in order to minimize the negative impact of emergency situations;
- to assess the health and safety performance of subcontractors and ensure that they operate in line with Metal Yapı policies and targets;
- to ensure that our clients are aware of the health and safety risks involved in all Metal Yapı processes and that they make provisions accordingly;
- to comply with the most restrictive version of national and / or international laws and regulations in all business processes, and in so doing to protect employee health and prevent injury and occupational illnesses resulting from accidents at work;
- to operate the control mechanisms required to ensure maximum functionality of the existing system; and to review the results periodically at management level so as to constantly improve health and safety management and health and safety performance.

Bülent ÖZGÜL

Chief Executive

A handwritten signature in blue ink, appearing to read 'Bülent Özgül', written over a circular stamp or seal.
